

ABDUL RAHMAN

Vijayawada, Andhra Pradesh, India | +91-8520944645 | 23HP1A1249@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Information Technology undergraduate (B.Tech, CGPA 7.78/10) skilled in Java, Python, SQL, JavaScript, Django, and Firebase, with a strong foundation in Data Structures and Algorithms, OOP, DBMS, Operating Systems, and Computer Networks. Built an AI-powered crop advisory platform for Smart India Hackathon and a real-time air quality monitoring system. Completed an 8-week Cyber Security Internship (APSCHE and Datavalley India) and holds Oracle Java and OCI AI certifications. Seeking Software Developer or Cyber Security roles.

EDUCATION

Andhra Loyola Institute of Engineering and Technology (ALIET) <i>B.Tech in Information Technology — CGPA: 7.78/10</i>	Vijayawada, AP <i>Sep 2023 – Sep 2027</i>
Sri Chaitanya Junior College <i>Board of Intermediate Education, Andhra Pradesh — CGPA: 64%</i>	Vijayawada, AP <i>Jun 2020 – Apr 2022</i>
St. John's E.M. High School <i>Secondary School Certificate, Andhra Pradesh — CGPA: 100%</i>	Vijayawada, AP <i>Jun 2009 – Mar 2020</i>

TECHNICAL SKILLS

Programming Languages: Java, Python, JavaScript, SQL
Frameworks & Libraries: Django, Chart.js, Leaflet.js
Databases & Cloud: MySQL, JDBC, Firebase, Firestore
Tools & Technologies: Git, GitHub, Bash, API Integration
Web Technologies: HTML, CSS, JavaScript (front-end basics)
Core Concepts: Data Structures and Algorithms, OOP, DBMS, Operating Systems, Computer Networks, Network Security, Cryptography
Soft Skills: Analytical, Team Collaboration, Communication, Meticulousness

PROJECTS

- AgriSetu – AI-Powered Smart Crop Advisory Platform** | *JavaScript, Firebase, Firestore, Leaflet.js* [GitHub](#)
- Developed a full-stack, AI-powered agri-advisory web platform for Smart India Hackathon, delivering crop recommendation, disease detection, weather insights, and soil analysis modules.
 - Implemented Firebase Authentication and Cloud Firestore (NoSQL) for secure user management and structured data storage.
 - Built geospatial farmer-buyer discovery with Leaflet.js for location-based matching and interactive map visualization.
 - Localized the application in English, Hindi, and Telugu (i18n) to improve accessibility for rural users.
- AQI Tester – Real-Time Air Quality Monitoring System** | *Python, Django, SQL, Chart.js, Leaflet.js* [GitHub](#)
- Developed a Django (Python) web application that collects, cleans, and analyzes real-time air quality data from external APIs for city-level comparison.
 - Processed pollutant metrics (PM2.5, PM10, CO, O₃, NO₂) to compare air quality across cities.
 - Designed interactive Chart.js dashboards and SQL-backed historical storage for trend analysis.
 - Integrated Leaflet.js for geospatial visualization of AQI across locations.

INTERNSHIP EXPERIENCE

- Datavalley India Pvt. Ltd. & APSCHE Program** May 2026 – Jun 2026
Cyber Security Intern
- Completed an 8-week cyber security internship covering network security, threat assessment, authentication, and cryptography.
 - Performed risk assessments and troubleshooting on hands-on security assignments.
 - Researched and applied secure software development practices to real-world scenarios.

CERTIFICATIONS

Oracle Cloud Infrastructure (OCI) AI Foundations Certification – Oracle
Oracle Certified Java Foundations – Oracle
Data Analytics Virtual Experience – Deloitte Australia (Forage)
